

Let the Data Speak

Ocuport turns numbers into on-brand, clear, beautiful charts

Data Is Hardest to Make Beautiful

01

COMMON PAIN POINT

Data pages take the most time and are the easiest to make look bad; alignment, colors, and legends get tweaked over and over, and still fall short.

Pain

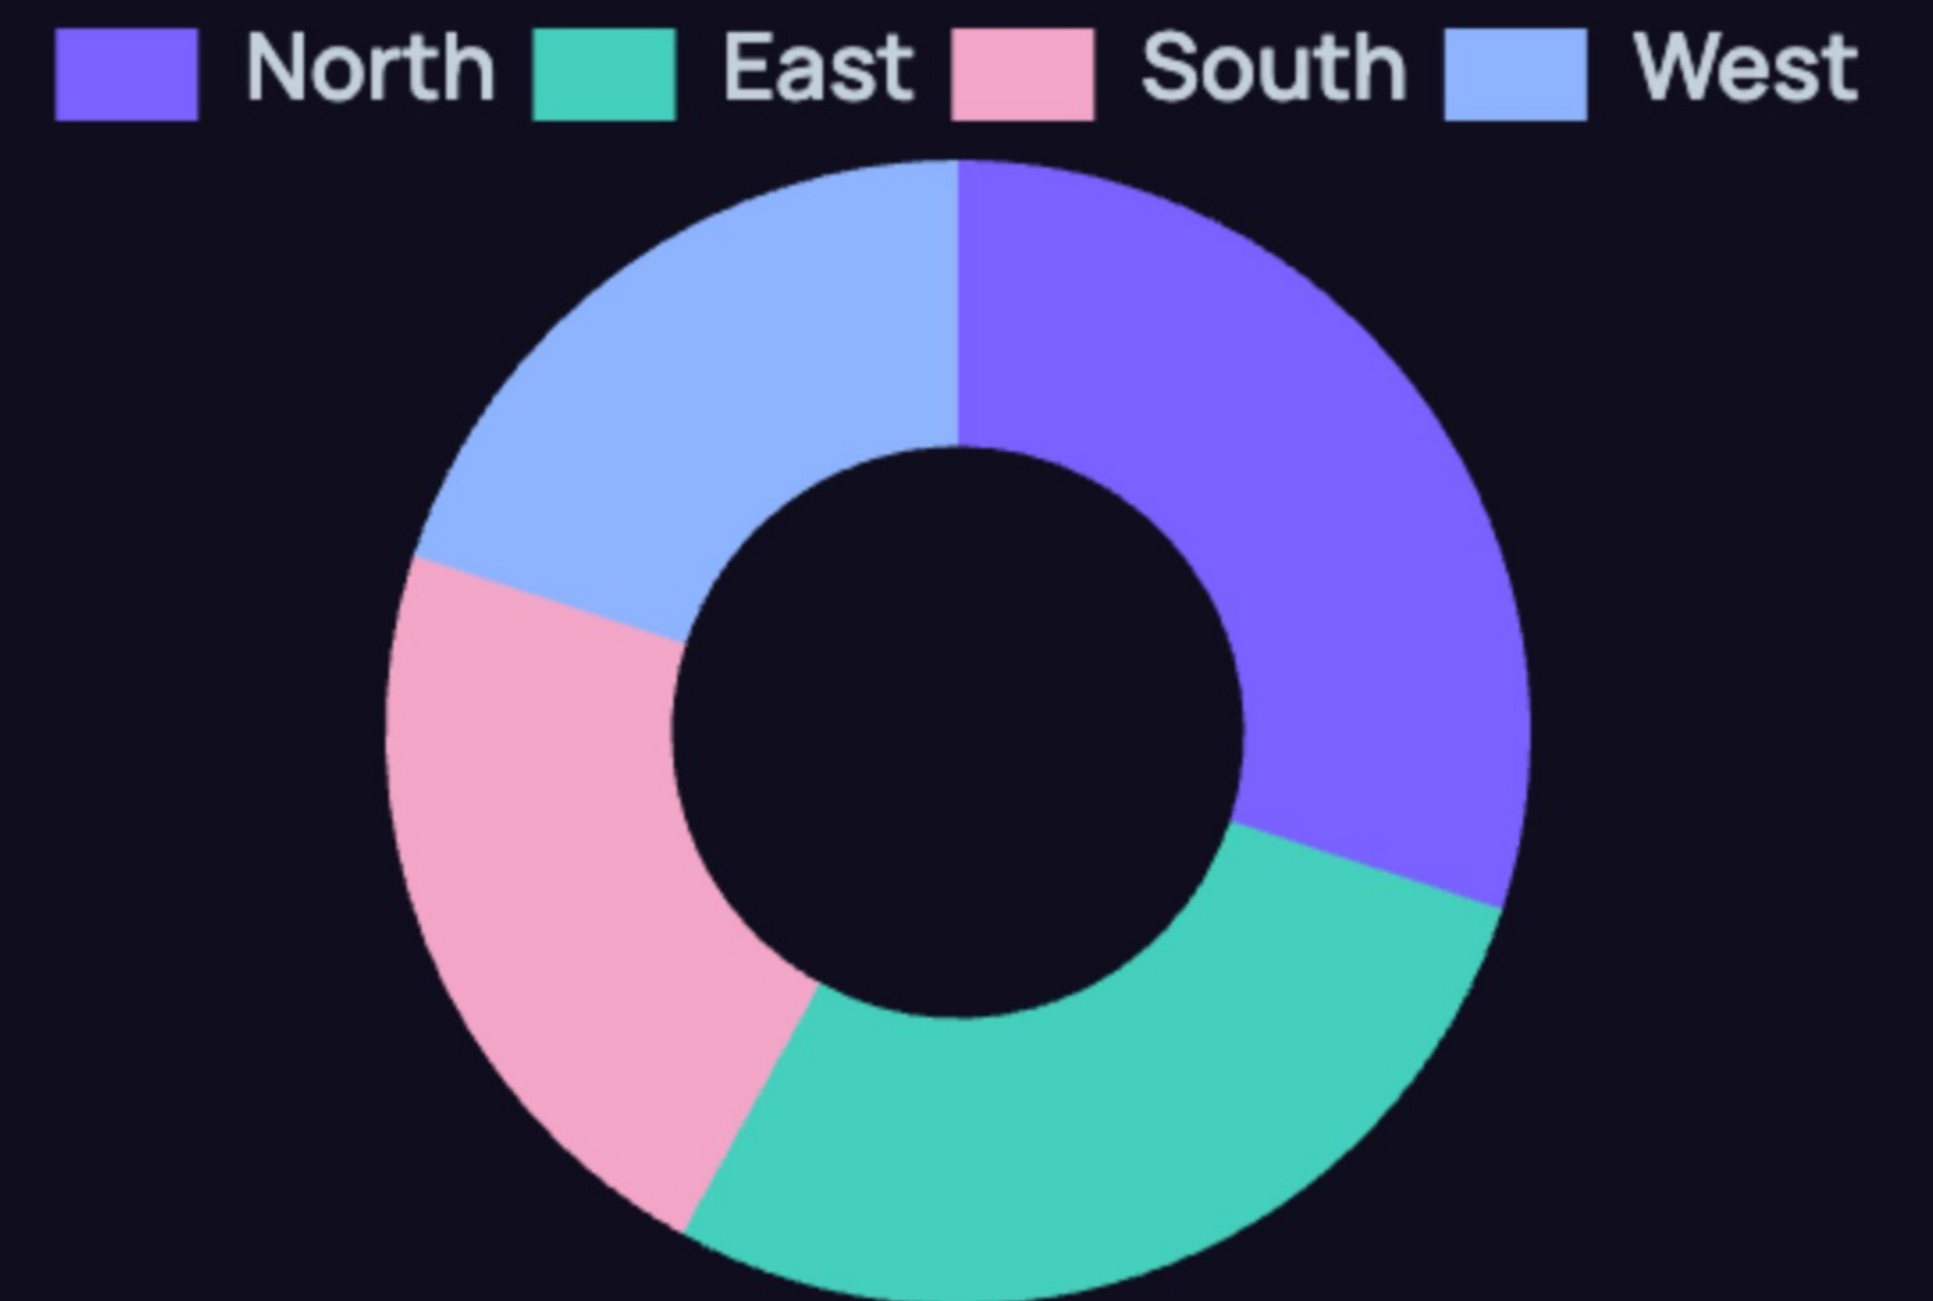

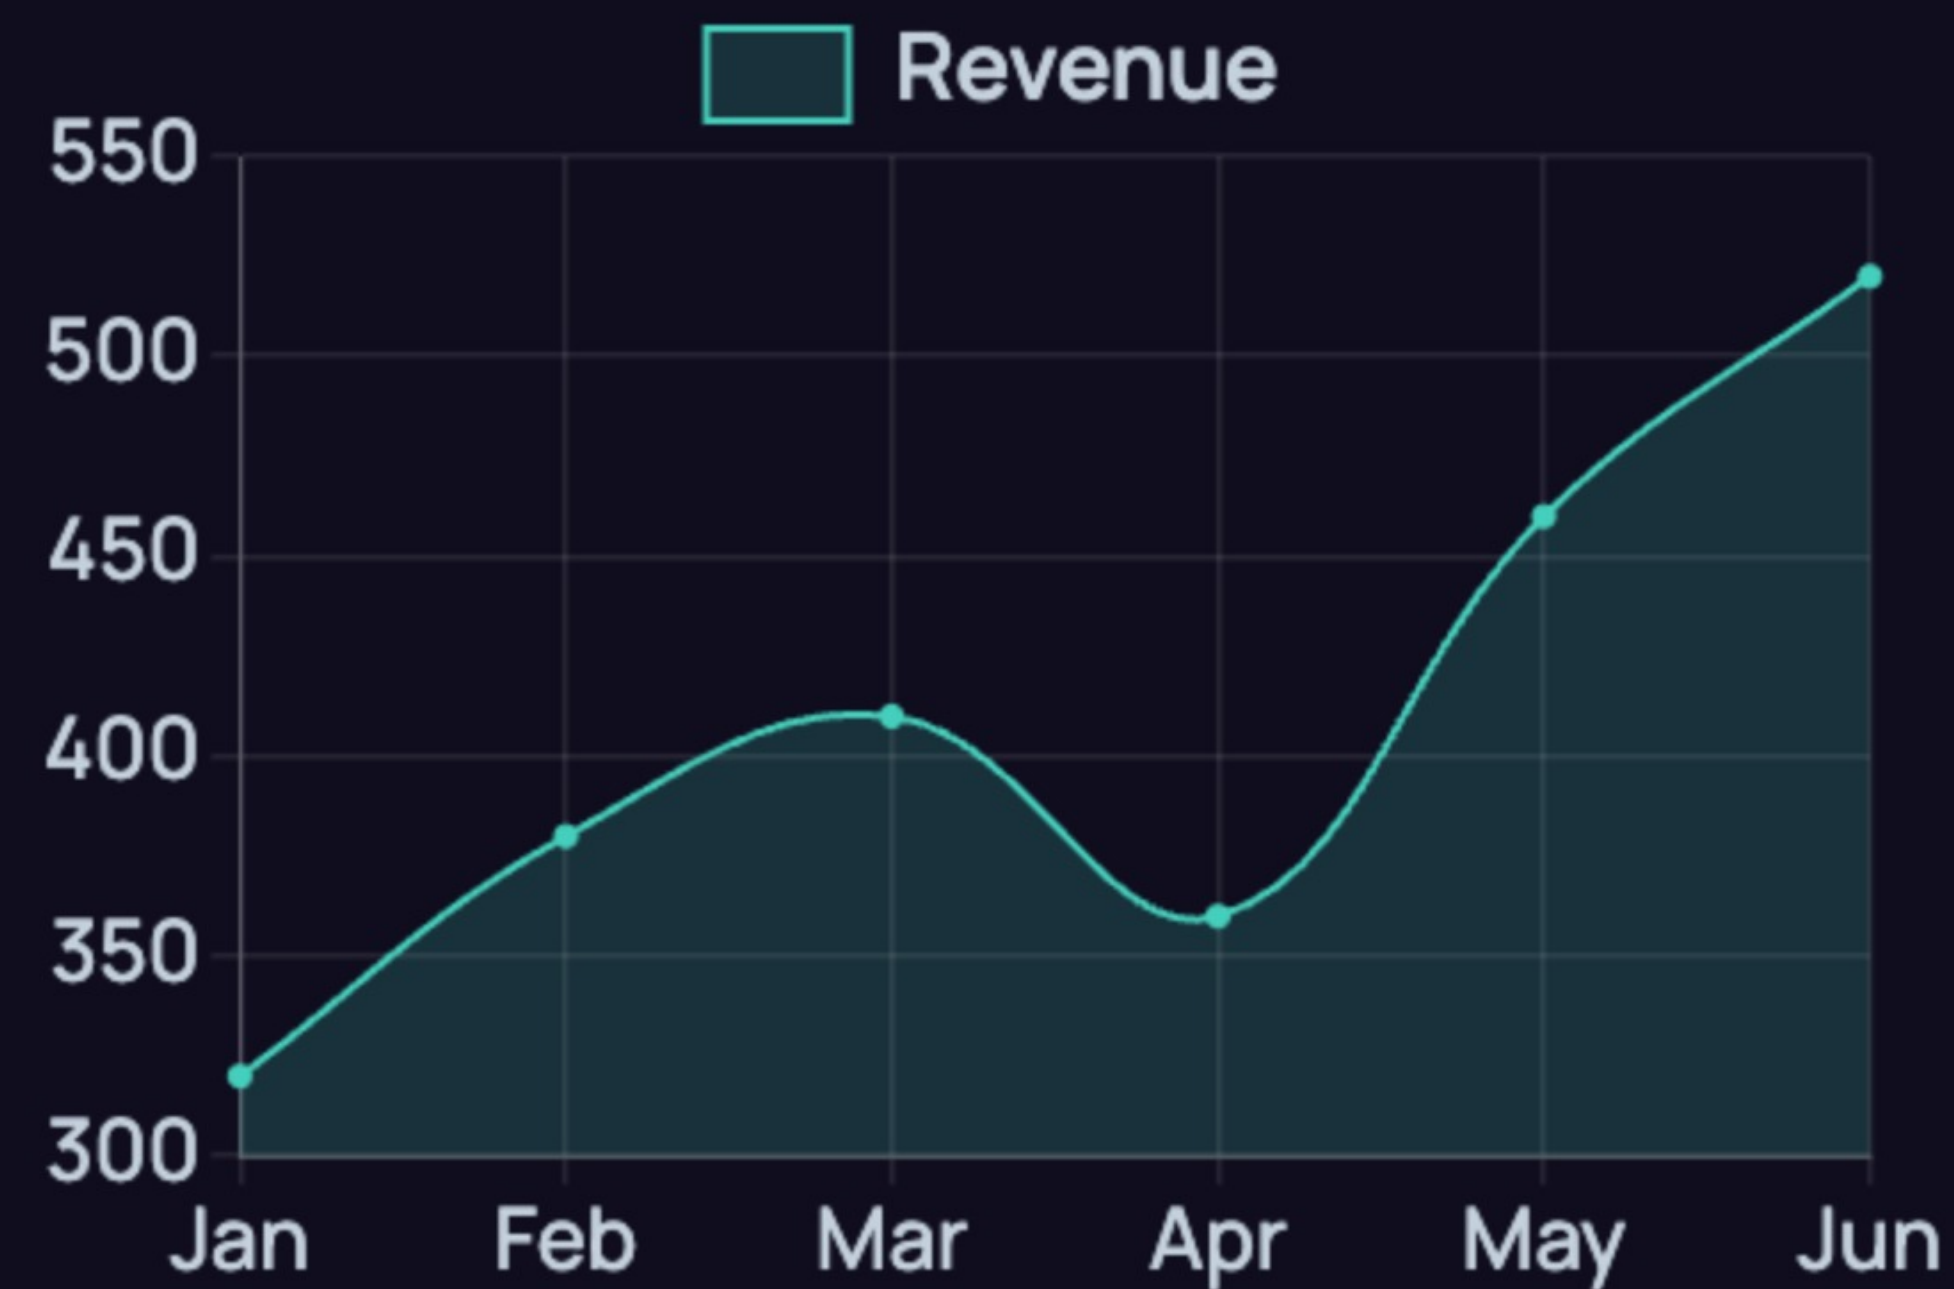

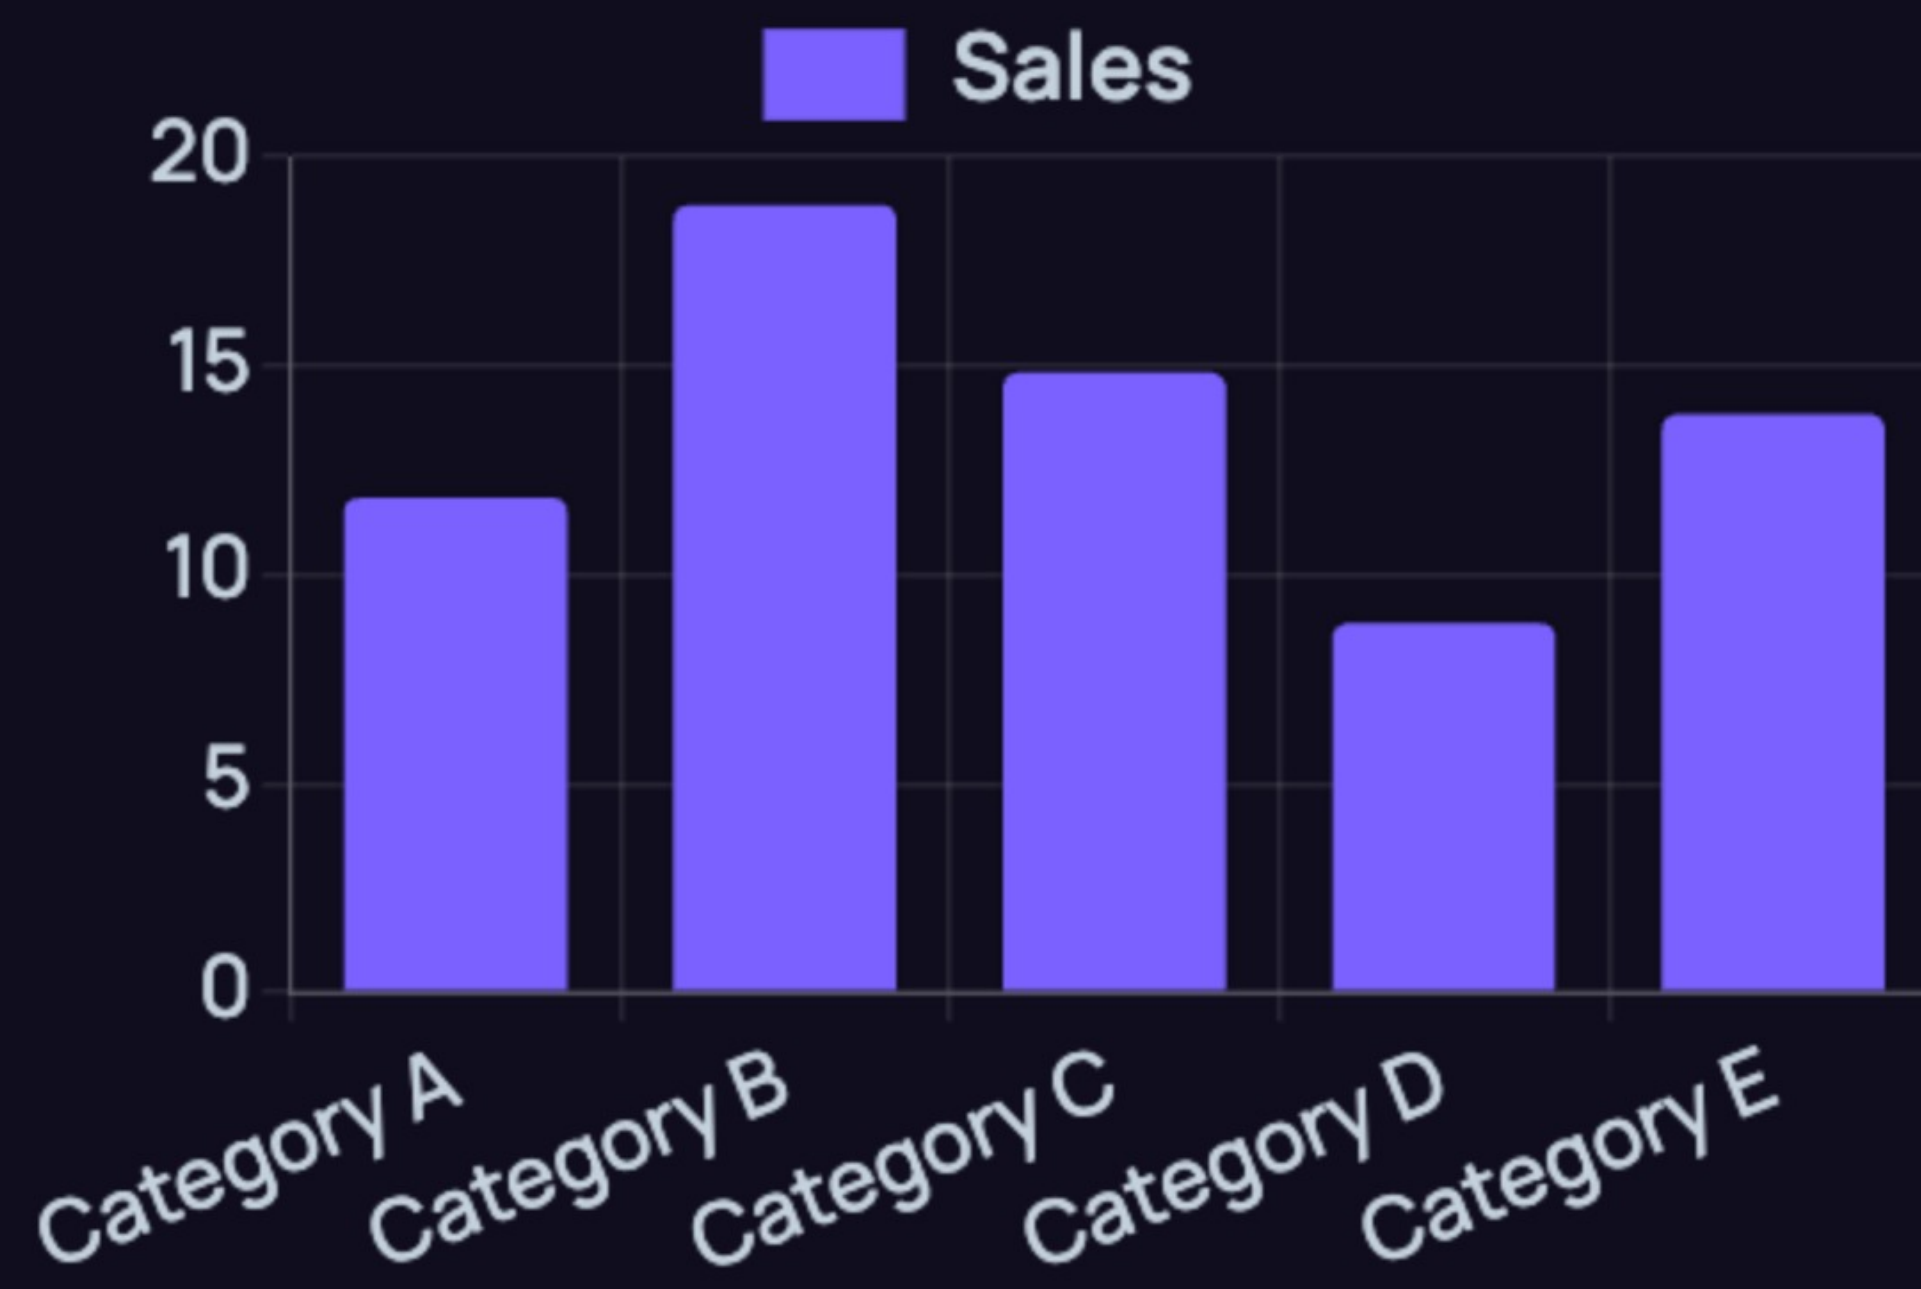

02

THE OCUPORT WAY

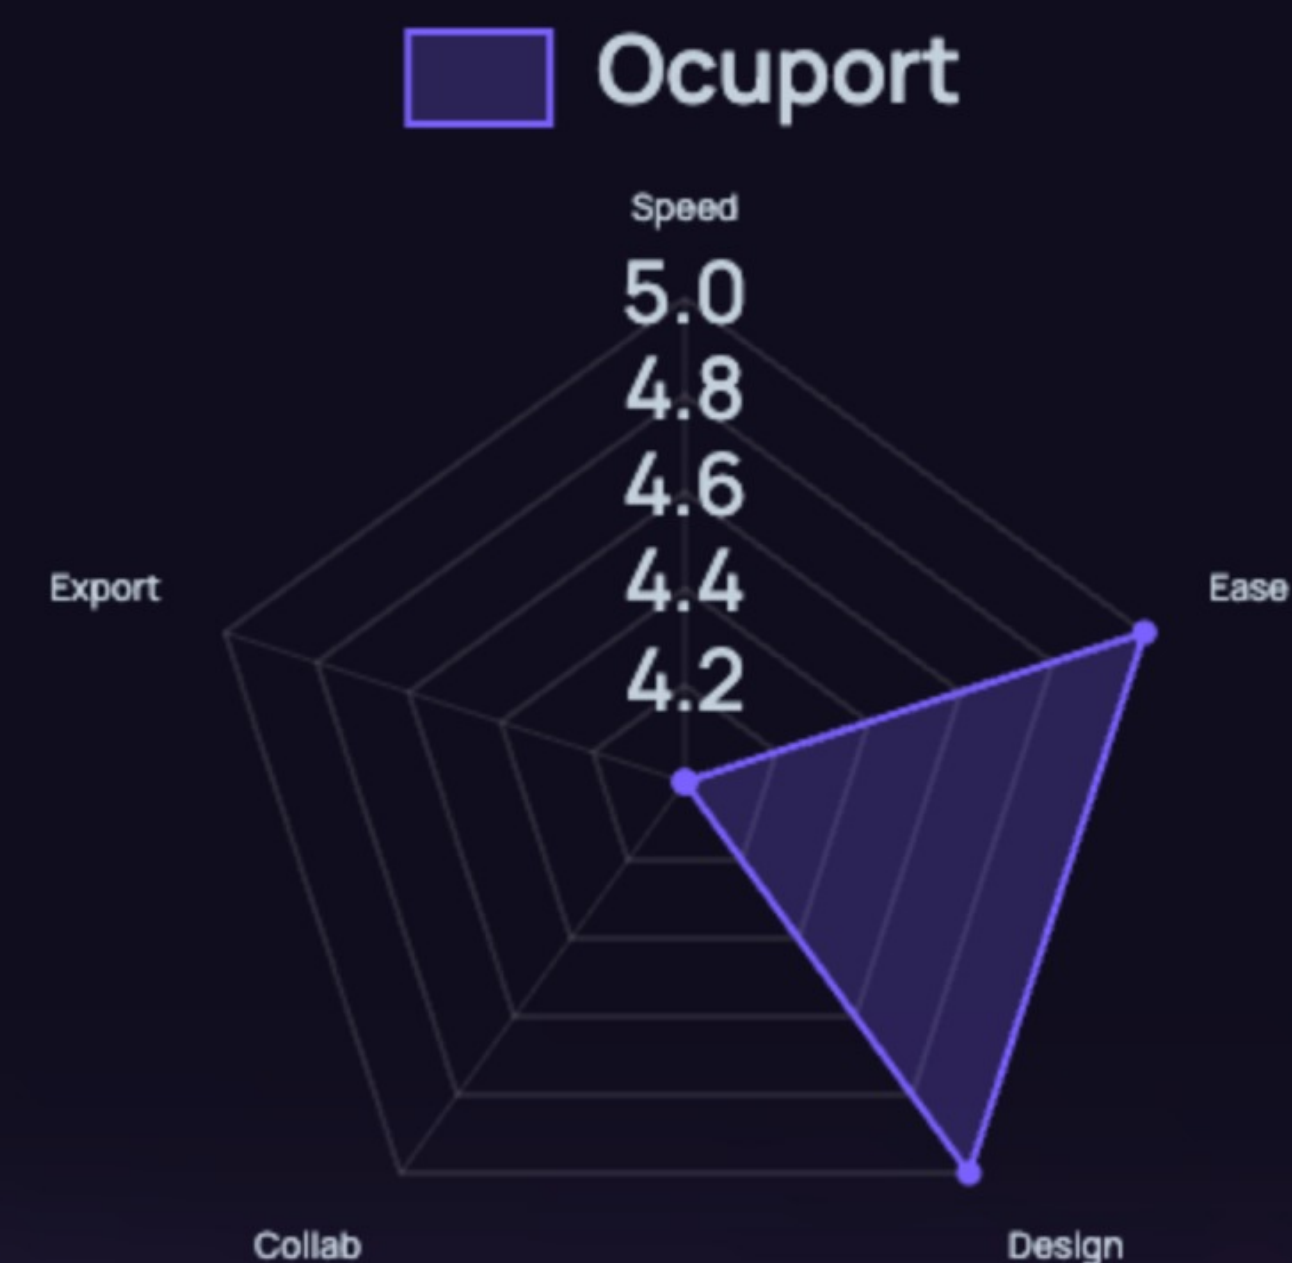

Charts pick their type and colors automatically — right the first time; put your energy back into content, not layout.

Solution

Five Chart Types

Online Offline Partners Other

AI Picks For You

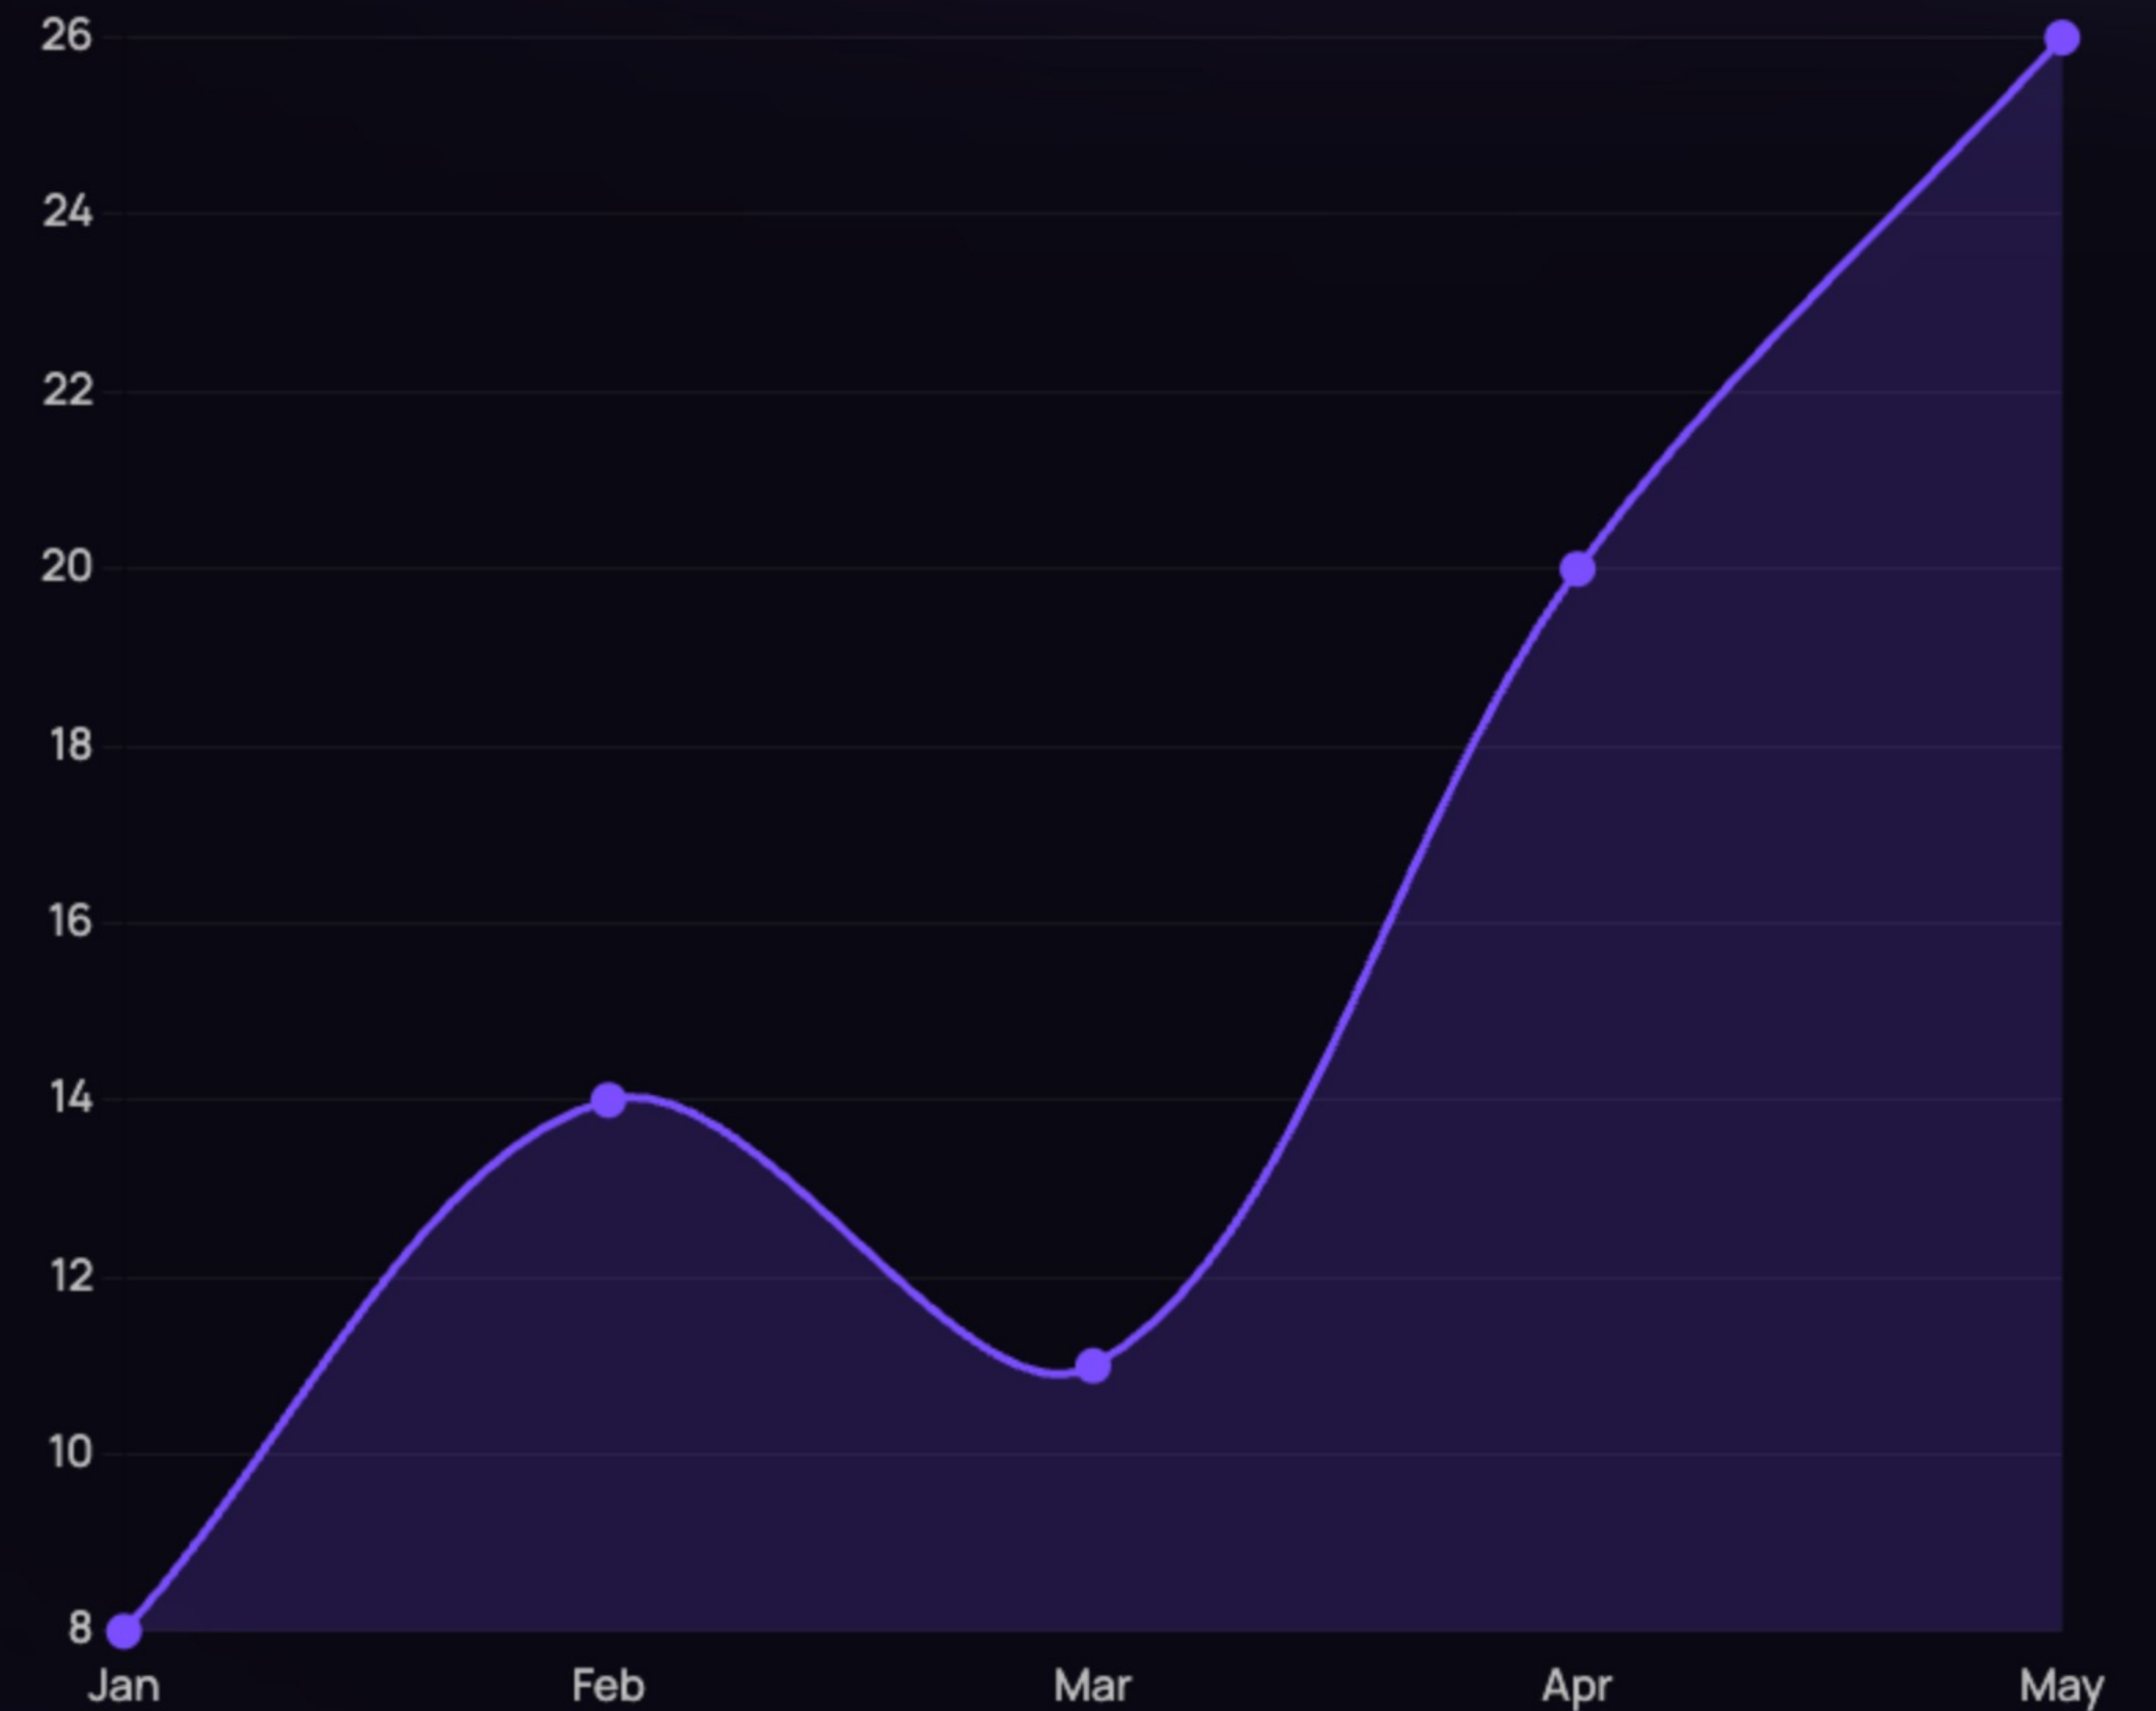

AUTO SELECTION

Hand over your data and AI picks the best chart type. Line for trends, doughnut for shares, bar for comparisons — the AI decides.

SAMPLE DATA

Jan 8 · Feb 14 · Mar 11 · Apr 20 · May 26
Continuous time series → AI detects a "Trend"

No Color Fuss

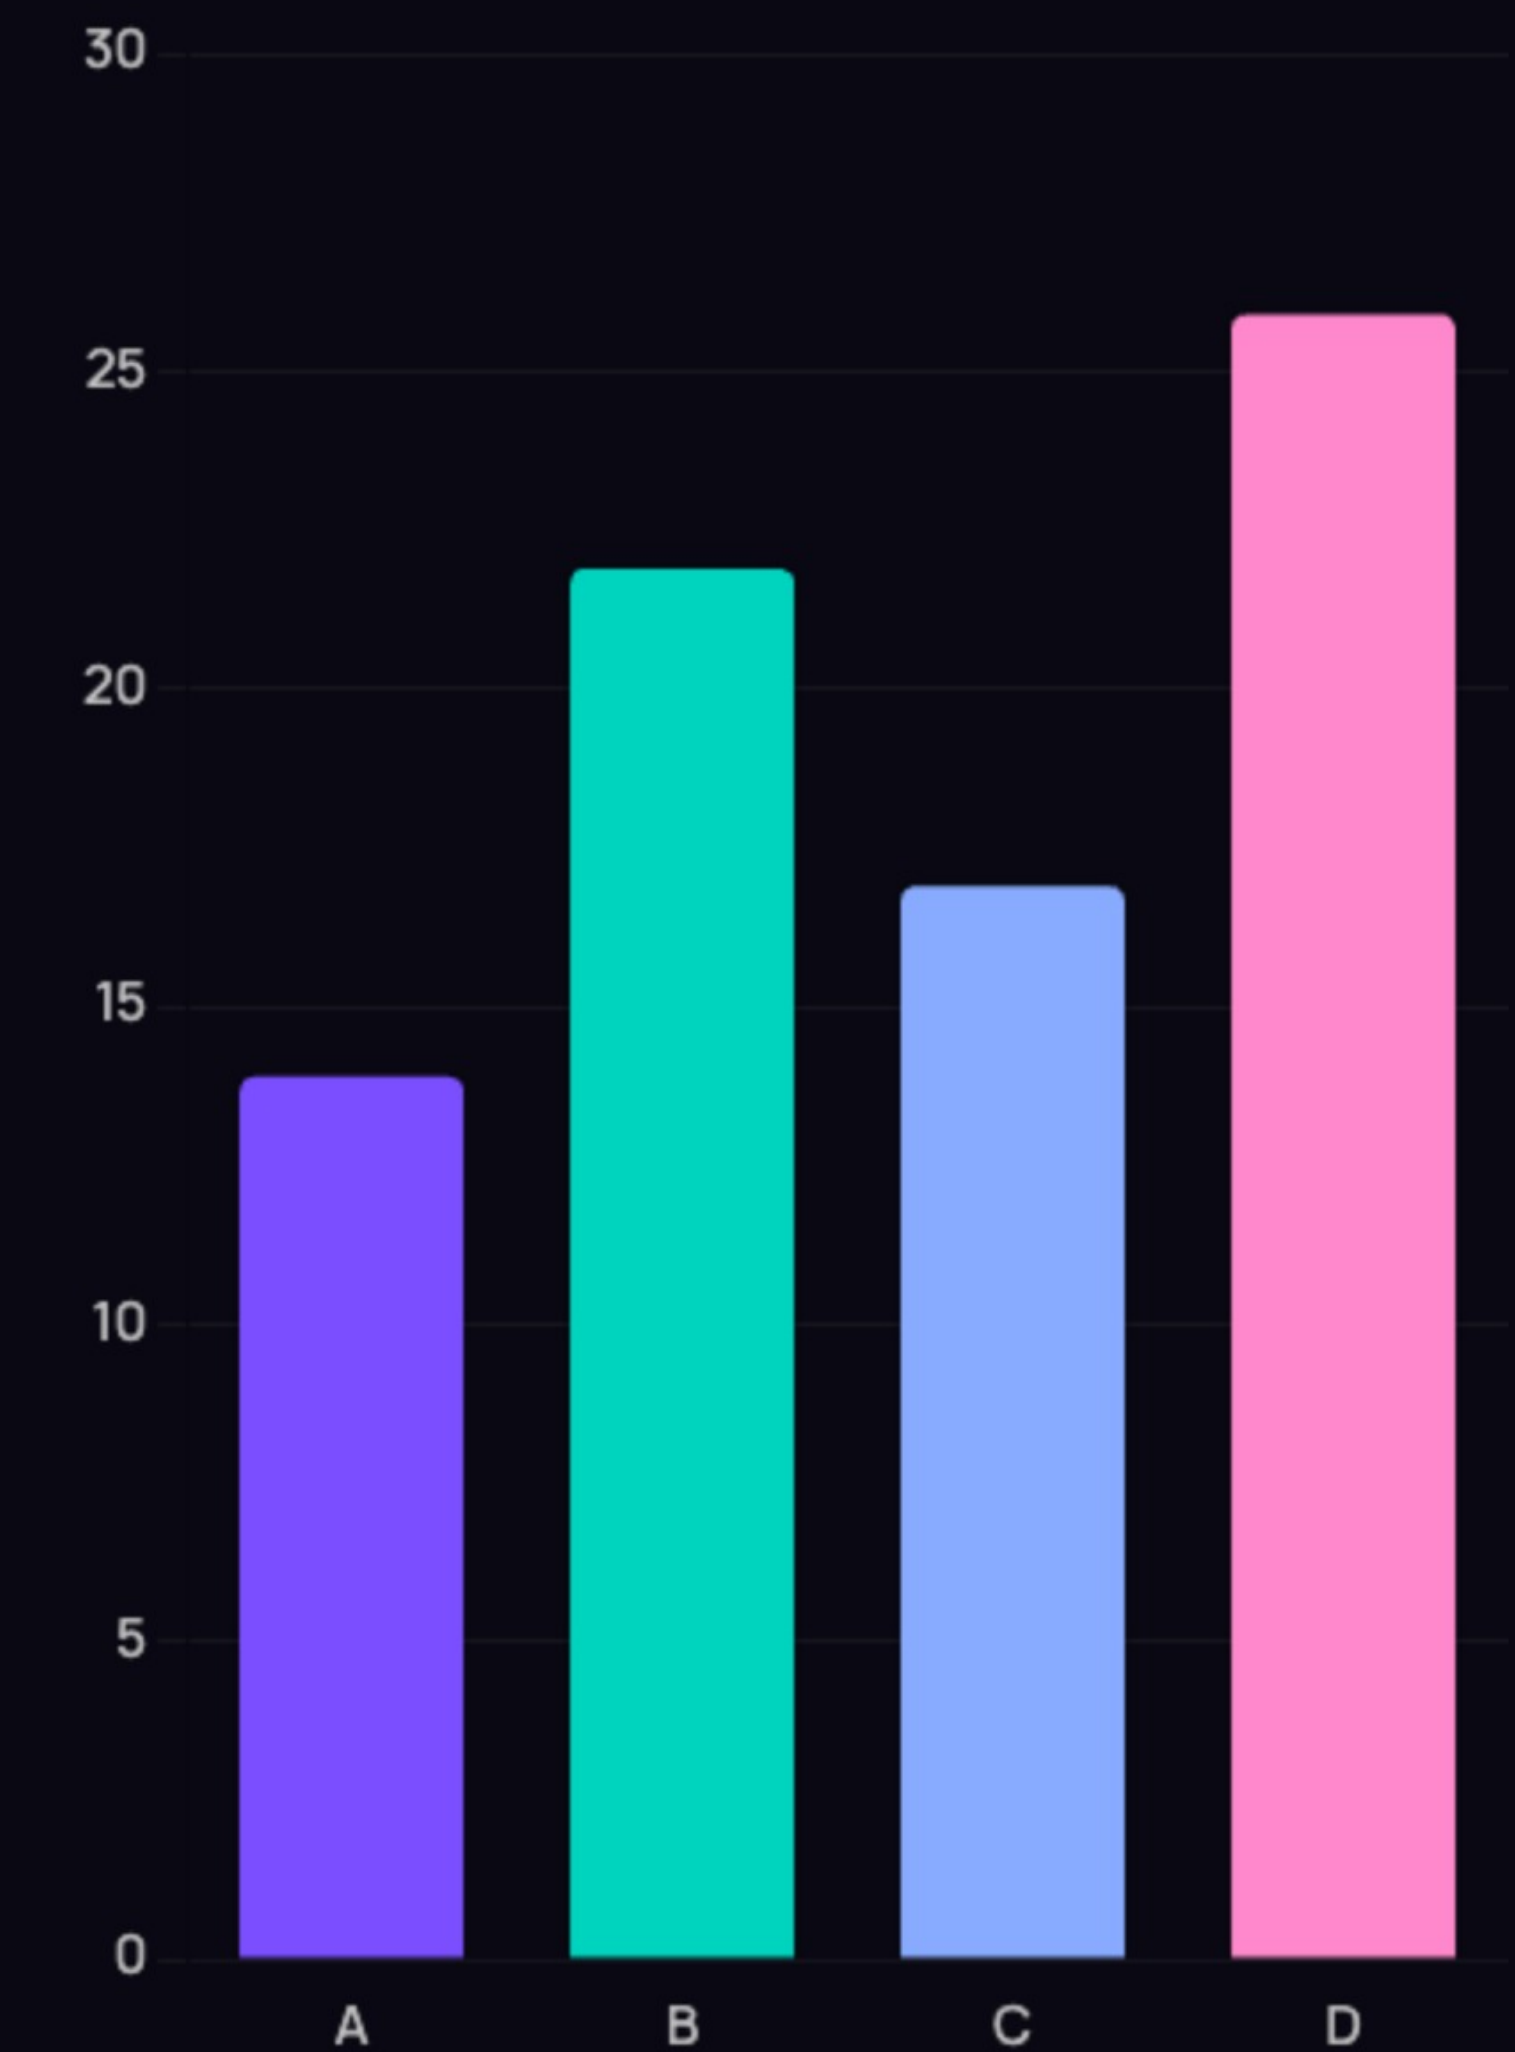

THEME-MATCHED

Chart colors, legends, and labels are drawn straight from your theme palette. Default gray on the left, one-click brand colors on the right.

FASTER CHARTING

Efficiency

Same data, charts done in a third of the time.

5

CHART TYPES

Coverage

Bar, line, doughnut, pie, and radar all included.

0

MANUAL COLORING

Automatic

Colors and legends all drawn from the theme palette.

Details, Just as Clean

When summaries aren't enough, you need to see every row. Ocuport makes detail tables as restrained as the overview — consistent spacing, breathable row height, on-brand colors.

Every column is aligned, readable, and comparable. Growth glows in brand green, declines flag in soft pink — clear at a glance, no legend needed.

From overview to detail, the visual language stays consistent.

Q1	320	—	180	88%
Q2	410	+28%	240	90%
Q3	380	−7%	210	89%
Q4	520	+37%	300	92%
